

MERC ONLINE COMMUNITY

DoD energy resilience practitioners can engage in discussions with experts, find upcoming energy events, discover project data, review case studies, and access tools and templates to accelerate their projects.

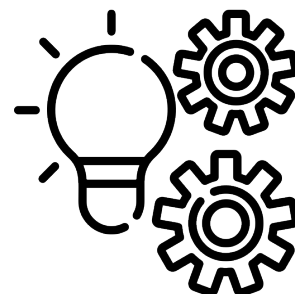

MERC ONLINE COMMUNITY AUDIENCE

Government and Military Personnel/Contractors - Select Federally Funded Research and Development Centers

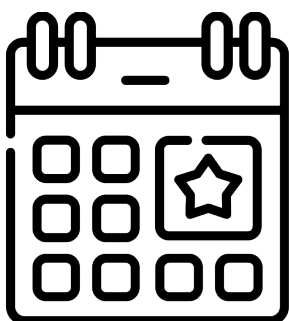

DISCUSSIONS

Members can participate in thought leadership, active forum discussions, share best practices, and ask questions.

RESOURCES

Members can securely share and access a library of policies, case studies, tools, and other digital files to accelerate project development.

EVENTS

Highlights the energy resilience events you need to know about and provides up-to-date information on all MERC announcements and upcoming events.

MERC COHORT AND FACULTY

Convenes energy resilience professionals from across DoD to provide project insights and acceleration support on energy technologies, installation energy resilience needs, and near-term innovative solutions.
